NEW DELHI 3 (INDIA);
The 10th October 1949.

K. MITRA,
for Registrar General, India.

NATIONAL
SAVINGS
CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.
National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).
Full particulars obtainable from all post offices, District Organisers of the Simla Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

Births and deaths from principal diseases in towns with a population of over 30,000 in the Provinces of India and some of the Indian States for the week ending the 10th September 1949.

REMARKS

The figures of births and deaths shown in this statement for the week ending the 10th September 1949, relate to 143 towns with an estimated population of 17,889 thousands. The total number of towns is 213 and their population is 16,943 thousands. Thus 69% of the total number of towns representing 70% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 14,018 and 8,275 representing birth and death rates of 40.3 and 24.1 per thousand of population respectively.

(A) Provinces.—The data here relate to 131 towns with an estimated population of 15,982 thousands. Information for Bihar, West Bengal, Orissa, Bhopal and Assam could not be included. The total number of towns is 189 and their population is 23,320 thousands. Thus 69% of the total number of towns representing 69% of the total population is covered. The numbers of births and deaths recorded in these towns were 12,923 and 7,570 representing birth and death rates of 42.1 and 24.7 per thousand of population respectively.

The table at the end gives the position by provinces. The towns of Guddiyattam and Nellore in Madras and Hathras in U.P recorded high death rates of 62.2, 53.4 & 61.3 per thousand of population respectively. In Guddiyattam, a considerable proportion of the deaths was due to Cholera. In Nellore none of the Specified causes seemed to have been responsible for the high death rate. In Hathras, a considerable proportion of the deaths was due to fevers and dysentery & diarrhoea.

(B) Unions and States.—The data here relate to 17 towns with an estimated population of 1,907 thousands. The total number of towns is 24 and their population is 2,623 thousands. Thus 71% of the total number of towns representing 73% of the total population is covered. The numbers of births and deaths were 1,090 and 696 representing birth and death rates of 29.7 and 19.0 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of the population.
